

FAQs:

What if I don't create an Adobe ID?

Without an Adobe ID, you will not be able to transfer eBooks to your Nook. You will be able to transfer eBooks to your computer, but you can only download them to one computer. With an Adobe ID, you can activate up to six computers with the same ID, in case you use more than one..

What do I do when the eBook expires?

You will not be able to read your eBook once the license expires (usually two weeks). However, the data stays on your computer and Nook until you delete it. To delete from Adobe Digital Editions, hover your mouse over the title, click the Item Options arrow in the top left, then click Delete Item. To delete from your Nook, click on the Nook icon in Adobe Digital Editions (Nook must be plugged into your computer), click the Item Options arrow over each book then click Delete Item.

Can I return an eBook early?

Yes! Open Adobe Digital Editions. Hover your mouse over the item and click the arrow in the top left (Item Options). Choose Return Borrowed Item.

Can I use my Nook's wi-fi to download directly to my device?

Since OverDrive uses Adobe Digital Editions for transferring the licensing of the book, you cannot download an eBook directly from the catalog to your device. The Nook does not support the Adobe Digital Editions software. You must download the book to your computer first, then transfer it.
