

FAQ

The book I want is in the Digital Catalog. Why can't I check it out now?

Only one user at a time may check out ebooks, just like regular print books. You can place a hold on the book you want, and you will get an email when it is available.

What do I do when the ebook expires?

You will not be able to read your ebook once the license expires (usually two weeks). However, you will still see the file listed on your device until you delete it.

Can I load my books onto different devices?

You can download your book as many times as you like during the checkout period. All copies will expire on the due date.

Do I need wi-fi to download to my device?

Your device needs to be able to access the internet to download directly to your device. If you don't have access to the internet, you can plug your device into a computer with internet access and transfer the book to your device.

Can I renew my book?

You may check the book out again as long as no one else is waiting for it. Otherwise, you can put your name back on the hold list and you'll get an email when it is available.
