#### For the Weekly Journal. THE SLAVE MOTHER.

"O leave this darling child to me, Its form is in my heart; I know too well that I shall die, If we are forced to part;

Thrice have ye torn my loved away O God! what scenes I've passed-My blood runs chill, my brain grows wild, O leave me but the last!"

She might as well have poured her prayers Upon the ear of death-The hammer fell, and dearest ties Were sundered at a breath!-

Night came, and through the forest dark, A child and mother sped. She heeded not the thorns beneath. The heating storm o'erhead.

But how she gained Ohio's wave, Through marshy swamp and dell, And how she crossed the crackling ice, O none but God can tell! And when she trod the Freedom soil. Safe with her infant boy, Her throbbing heart tumultuous beat In wild, delirious joy.

But hark! the hunter's on the way. His hounds have crossed the wave, Yet never shall that dark browed boy . Become the white man's slave; One parting kiss-and swift she dashed Her idol in the stream,—

Then turned and fled—but fell, as pierced

Her heart its dying scream!

God help the childless mother now, Not one free foot of ground To save the panting fugitive, In all the nation round; Not one bright blade leaps from its sheath To free those shackled hands, Whose veins shall pour their purple tide On Alabama's sauds.

They bound her to a withered tree, Fast fell the torturing stroke, But soon she felt its power no more Than did that blasted oak; Her soul defied them, and her voice Rang with her parting breath-"I summon you to follow me Into the land of death!"

A strong man on his dying bed Writhed tossing to and fro; One voice was ever in his ear, One shrick of mortal woe; Its eye sent arrows through his soul, That scarred form by his side,-O for more terrible than her's, The wretched death he died! Chicopee Mass.

JAMES C. PRATT, Editor.

Two weeks ago, we published an article in relation to the Utah question, and took the ground, although rather hesitatingly, that she should be admitted into the confederacy. We still incline to that opinion; but the subject is a difficult and knotty one-probably the most so of any question which has ever come before the American people. There can be very strong arguments produced on both sides. Great evils can be imagined if she is admitted into the Union, and also great ones if congress refuses to admit her. One of the two things must be done, however, and the only course seems to be take the least of the two evils. A friend has requested us to publish the following, against her admission, from the Wisconsin Democratic Press:

The immense tide of immigration that has recently set in upon our shores, under the guide of Mormon elders and prophets, to inhabit the great valley of the Salt Lake, is well calculated to create a feeling of so-United States as to the future of Utah territory. But the cream of the matter is is revolting to every pure minded man or woman, and what is punished as a crime in every civilized country in the world. We refer, of course, to polygamy. This crime, it is well known, is preached up by these elders, prophets and leaders as a virtue, and practiced by the Mormonites with more devotion than any other dogma of their creed.

The constitution of the United States guarantees to every citizen religious liberty. But in doing so it does not provide that a man, or a set of men, or a sect, can set at defiance the law of the United States. If in worshiping Mahomet, or Joseph Smith, or Juggernant, we give no offense to society nor to the recognized laws of the land, then we come under the protection of the constitution and are clearly entitled to all the rights and privileges guar- full measure. Pretending to be christians, with a high sense of honor and integrity, they grant a government to a people whose most prominent characteristic is not only the demoralization of woman, but also her actual enslavement. Polygamy is the sure precursor to the degredation of the female sex; for whenever a man wants a slave he marries a woman who will drudge and toil for her lord and master, to be driven forth at his caprice, a Hagar in the wilderness.-Let "woman's rights" preachers turn their attention for a season to the degradation of the fair sex in Utah by these saints: burthen to avaricious and unprincipled prietor of the Chicopee House, to take tration by Gideon Granger, on the 23d of mont, Delaware and Florida. From the N. Y. Tribune. COMFORT FOR THE BOOHOOS.

The most despondent and vocal of our boohoos were not personally in favor of the annexation of Texas. They would rather-have had that star out of our constellalation, and they submitted to its admission only, as they submit to all the advances and usurpations of the slave power, for the sake of peace, and to save the Union. They never welcome the admission of slave states for slavery's sake, but for the Union's, and always rejoice that the balance is kept even by the cotemporaneous admission of free states. Well, gentlemen, if the annexation of Texas, with its slavery, was no great blessing, would it be any great curse if she should leave us? Or suppose Georgia should leave us as she threatens in case Kansas is not admitted with slavery, and should take Florida and South Carolina with her, would that be any worse than the dis-annexation of Texas? Here we add a free state, and get rid of three slave states, at a blow. The slave power thus throws at our feet as much as the result of half a dozen of its victories. Is this very terrible? If the supposed seceding states had never been embraced in the Union, a failure to annex them as an offset to free Kansas would not have been very deplora-

ble, would it? How likely a faction which has always shown so keen a relish for addition is to subtract three states from its power, in revenge for being baffled in its design to add one more, must be left entirely to your credulity to decide. Ours is not adequate to the task. We only call your attention to the nature and degree of the evil, in case it happens. Weigh it well, gentlemen, before you exhaust the briny floods within your sympathetic and patriotic bosoms.

Possibly your fears extend to a more serious substruction, amounting to an entire secession of the stripes from the stars.-You are in awe, lest the slave states, hav ing gained and long rejoiced in almost unlimited power over the free states, should relinquish the whole of that power if not permitted to increase it. In that case, the Union will be sundered precisely between freedom and slavery, and poor freedom will be left to make her way down through the unexplored tracts of future history with an utter destitution of despots. What might befall her in such untried circumstances is doubtless sufficient to agitate the profound est depths of your timidity, and to unseal fountains there worthy of the prophet Jeremiah. But first consider whether the circomstances are at all probable. Remember how anxious the slave states have always been to introduce into our treaties rendition of their fugitive property of a peculiar sort. The labors of our federal diplomatists for this purpose with Mexico and Great Britain have far exceeded the labors of Hercules in numbers and difficul-

ty. The Union, as now interpreted and administered, embodies such a treaty, or rather exists as such. Whatever then may be said of distant slave states, will those most powerful and populous ones which IN the Journal of last week, is an article sign border on free states voluntarily give up this treaty, now the sole practical guaran- lett, of which we wish to take more than a slight the of their slave property, with a certain-ty that they will get nothing so good in which and we should think it would seem the place of it? But it, they refused to sign; and as this language suppose that bill should be flatly repealed; fered it to them to sign: what then? The states aforesaid, having lost their guarantee, would be obliged to divest themselves, in one way or another, of their peculiar property, as soon as possible. They would then come into the appearance of shame and sorrow, that they had world's land-market and invite emigrants from the free states and from foreign countries. The rise of their real estate would asson richly compensate them for any losses thin, in which he said he was willing to retract, on the un-real. DIED.

In Deerfield, July 3, MARTHA H. WHITMAN, daugh er of Rev. Nathaniel Whitman.

With a slow and solemn tread,
Bear ye to its rest our dead;
Beneath the consecrated tree
Give to the earth its form of beauty.
Whilst 'mid flowers and prayer and hymns
The spirit opes it; folded wings
Now let the turf be laid O'er the grave new made, we, who silent mourn. Seek a lonely home. List! the music sweet and low From a new strung harp doth flow, And accents ever dear Glad our stricken spirits hear, Glad our stricken spirits hear,
Guiding we who mourn
To our brighter home—
Making earth's paths bright,
Changing shadow into light.
Now let fond adieus be said
To this beateous semblance of the dead;
Nor with our joy be mixed a tread
Of loneliness, for thus
Within the grave hath Jesus slept,
Whilet finite mortals went. Whilst finite mortals wept.
With Christ we'll walk, with him arise
Above earth's cloudy skies, To own a blessed surprise. "Sunny Side," July, 1855.

Helmbold's Genuine Preparations.

HELMBOLD'S HIGHLY CONCENTRATED Compound Fluid Extract Buchu

Tolt diseases of the Bladder and Kidneys, Secret Diseases, Strictures, Weakness, and all diseases of the Sexual Organs, whether in male or female, from whatever cause they may have originated, and no matter of how long standing.

If you have contracted the terrible disease which, when once seated in the system, will surely go down from one generation to another, undernining the constitution and sapping the very vital fluids of life, do not trust yourself in the hands of Quacks, who start up every day in a city like this, and fill the papers with glaring falsehoods, too well calculated to deceive the young, and those not acquainted with their tricks. You can not be too careful in the selection of a remedy in these cases.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known.

The Fluid Extract Buchu has been pronounced by eminent physicians the greatest remedy ever known. It is a medicine perfectly pleasant in its taste, and very innocent in its action, and yet so thorough that it annihilates every particle of the rank and poisonous virus of this dreadful disease; and, unlike other remedies, does not dry up the disease in the blood, Constitutional debility, brought on by self-abuse, a most terrible disease, which has brought thousands of the human race to untimely graves, thus blasting the brilliant hopes of parents, and blighting in the bud the glorious ambition of many a noble youth, can be cured by this infallible remedy. And as a medicine which must benefit everybody, from the simply delicate to the confined and despairing invalid, no equal is to be found acting as a cure and preventive.

ing from excess of Mercary, exposure and imprudence in life, chronic constitutional disease, arising

dence in life, chronic constitutional disease, arising from an impure state of the Blood, and the only reliable and effectual known remedy for the cure of Scrofula, Salt Rheum, Scald Head, Ulcerations of the Throat and Legs, Pains and Swellings of the Bones, Tetter, Pimples on the Face, and all Scaly Eruptions of the Skin.

This article is now prescribed by some of the most distinguished physicians in the country, and has proved more effectual in practice than any Sarsaparilla yet offered to the public. Several cases of secondary Syphilis, Mercurial and Scrofulous diseases have entirely recovered in the incurable wards of our Pt blic Institutions which had for many years resisted every mode of treatment that could be devised.—These cases furnish striking examples of the salutary effects of this medicine in arresting some of the most inveterate diseases, after the glands were destroyed, and the bones already affected.

Notice.—Letters from responsible Physicians and Professors of several Medical Colleges, and certificates of cures from patients will be found accompanying both preparations.

A MARVELOUS REMEDY FOR A MARVELOUS AGE.

HOLLOWAY'S OINTMENT.

The Grand External Remedy By the aid of a microscrope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. Diseases of the kidneys, disorders of the Liver, affections of the heart, Inflammation of the Lungs, Asthmas, Coughs and Colds, are by its means effectually cured. Every housewife knews that salt passes freely through bone or meat of any thickness. This healing Oinsment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that can not be reached by other means.

Erysipelas, Salt Rheum and Scorbutic Humers.

No remedy has ever done so much for the cure of No remedy has ever done so much for the cure of diseases of the skin, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scurvy, Sore Heads, Scrofula, or Erysipelas, can long withstand its influence. The inventor has traveled, over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.

Sore Legs, Sore Breasts,

Wounds & Ulcers. Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when having to cope with the worst cases of sores, wounds, ulcers, glundular swellings, and tumors. Professor Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large shipments of the Ointment, to be used the direction of the Medical Staff, in the worst cases of wounds. It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of 20 years' standing.

Piles and Fistules.

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

It is a remarkable fact, that among the hundreds of
eminent physicians who have examined the recipe by
which Bull's Earsaparilla is prepared, not one has condemned it, but all approved it, and commend it in the
highest terms. Many physicians express themselves
strongly in the belief that it is decidedly the best preparation of Sarsaparilla shat has ever been placed before the
public. Although there are many physicians who feel a
reluctance to having their names appended to the recommendation of any particular remedy, notwithstanding
they may approve of it in the highest degree, there are
others who frankly yield their support in favor of a
remedy which they know is capable of doing so much
good in an afflicted community. As an evidence, read the
following from old and respectable physicians, of high
standing in the community in which they live:

From Hedical College: I have looked over the list of ingredients composing John Bull's Compound Extract of Sarsaparilla, and have no hesitation in saying that they form a safe compound, and one that promises well in chronic diseases, to which it is applicable.

I have examined the prescription for the preparation of John Bull's Sarsaparilla, and I believe the combination to be an excellent one, and well calculated to produce an alterative impression on the system. I have used it both in public and private practice, and think it the best article of Sarsaparilla now in use.

Sig.—Permit me to address to you a few lines, and do me the honor to reply to a request that I will make in the conclusion of this letter, etc.

I am a graduate of Transylvania Medical University; I have practiced medicine in this wilderness country, about five years, but owing to exposure to bitter cold weather, I have been indisposed with Acute Rheumatism about six months. After having exhausted my skill in the treatment of my case, and deriving no benefit, I was induced to give your PLUID EXTRACT OF SARAPARILLA a fair trial, and accordingly purchased a bottle of your medicine from your agent, Mr. George P. Brown, about two weeks ago, and I must confess that one bottle has entirely cured me. It is my opinion, that your preparation of Sarsaparilla is decidedly superior to any other preparation now in use, and I will take great pleasure in recommending it to the afflicted as being a remedial agent, and I will advise the physicians to use it in their practice, etc.

Respectfully yours, B. B. ALLEN, M. D.

Louisville, July 13th, 1849

I have examined the list of articles that compose John Bull's Extract of Sarsaparilia, and I have no hesitation in saying that it is a safe and valuable compound. I would prefer it to any article now in use, for the diseases arising from an impure state of the blood or taint of the system. I confidently recommend it to my friends as being a powerful Extract, and one that I believe will cure all classes of diseases, for which it is recommended, if used according to directions. I believe it to be a valuable succedaneum to Mercury.—Nay, I have my doubts whether in the most violent and protracted cases of Syphilis, accompanied with Nodes Trophe, in caries of the bones, whether it ought not to succeed every other remedy.

S. R. McCONAULIE, M. D.

Honorary member of the Medical Society, Phitadelphia.

Thear, what Dr. Stapp, a physician wflo stands at the top of his profession, says of John Bull's Sarsaparilla. I have been using John Bull's Sarsaparilla, in a great variety of chronic diseases, with the most happy effects, and I have no hesitation in recommending it to the public for the cure of scrofula, syphilis, and all cutaneous and giandular diseases. Yours, most fervently, Lewisport, Ky., April 6, 1849. WM. STAPP, M. D.

Louisville, May 20th, 1849.

We have used John Bull's Sarsaparilla, and have known it to be used, with entire satisfaction; and we have no hesitation in stating our belief, that it is a safe and valuable medical compound, and calculated to produce much good and relieve much suffering; and therefore would cheerfully and most earnessty recommend it to the afflicted.

We earnestly invite all persons who are suffering with any of "the fils that flesh is heir to," to call on Dr. John Buil's agent, and get a copy of Bull's Family Journal anarts; and for the sake of humanity, we hope that a single individual will not be found unwilling to give Bull's Sarsaparilla a TRIAL, after reading, and recollecting, at the same time, that it is impossible for the Doctor to publish the tenth part of the number of certificates of astounding cures peformed by his Sarsaparilla. The amount of testimony voluntarily showered on Dr. Bull's Sarsaparilla, from well known and distinguished individuals, both in public and private life, has been perfectly overwhelming.

Bosron, Nov. 21, 1853.

Messes. Eastman & Co.—Gentlemen.—I have been afflicted with the headache and pain in my head.—I have tried many remedies without benefit. Your "Sick Headache Remedy" was mentioned to me, and though I had but little faith init, I gave it a trial.

I found great relief from its use, and often immediate, when suffering from great pain. I have, since I tried it, been freer from headache than at any previous time for many years. It is now two months since I have had the headache and it is not too much to hope that the cure is permanent.

To meny such sufferers I have recommended the specific, and in no case has it failed to relieve the sick headache, and that immediately.

Your medicine is simple, agreeable to take, interfering with none of the duties of life, and must, I think be universally adopted.
